Spring/Summer 2014

Dear Fellow Huntington Resident:

On behalf of my Town Board colleagues, I am proud to present our *2014 Parks and Recreation Spring/Summer Activities for Children & Adults* brochure. As this brochure attests, the Town continues to uphold its long-standing commitment to providing a diverse array of recreational programs and activities for children and adults.

As the Long Island region continues to struggle with a challenging economy, it is important to remember all we have to offer for a fun and relaxing summer right here in Huntington. Whether it is a visit to one of our beautiful beaches, a hike through one of our passive parks, attending one of our free Movies on the Lawn programs or an evening under the stars at the Arts Council's Summer Music Festival, there are countless opportunities to celebrate and enjoy the summer season locally.

Thanks to your support, enhancements and upgrades to our parks, playgrounds, beaches and other recreational facilities will continue this year. Construction of the new Coral Park in Greenlawn will be completed this spring. New playgrounds are slated for Crescent, Fleets Cove and Hobart Beaches. Several tennis courts and basketball courts are scheduled for re-surfacing.

To better accommodate our residents, the town is using additional forms of technology to enhance communication. Please take a look at the new and vastly improved Town website <http://huntingtonny.gov>, which has made it much easier for you to find important information and to contact the Town.

As always, we welcome your comments and input. If you prefer to contact us by telephone, please call the Department of Parks and Recreation at (631) 351-3089. This number is available from 8:30 a.m. to 4:30 p.m., Monday through Friday.

Wishing you and your family a healthy and enjoyable summer.

Sincerely,

Frank P. Petrone  
Supervisor

We provide you with many materials for that dynamic vehicle that you will build. You also get to build an Egg Drop Car. The purpose is to build a gravity vehicle that can cushion a raw egg as the car holding the egg is dropped from a high height. We provide you with the material to cushion the fall. You'll connect the motor, battery, and microphone to a circuit board, which will program your sound activated (clap of the hand) robot. There will be time set aside in this workshop, to put your imagination and skills to the challenge. Working in small groups, you'll build different robotic creatures and vehicles. They will eventually be tested for speed, strength, and endurance. The robots built in this section of the workshop are not taken home. They are taken apart and the parts are reused to build yet another robotic creation. Tires, motors, gears, wires and controllers are used to move these robots across the floor. After making trial runs, you can modify your designs to increase your robot's level of speed and/or strength, to meet the testing challenge. With its own café indoors and covered patio outdoors, stop for a leisurely lunch you can purchase at the café or bring your own. Then go back in time to the sixties Civil Rights and Space Race, a legacy unlike other, and enjoy a "must-see cultural destination." We depart by motorcoach and head to the harbor for a relaxing two-hour cruise on the Hudson. This is an authentic paddle boat ride with two covered decks for plenty of inside space or go topside for fresh air view. It's a narrated Hubble Telescope show with stunning views and images from outer space. Inside the museum we also have time to enjoy an interactive demo as we enjoy the fun of the "Don't try this at Home" program and continue on to explore the variety of science at our fingertips. A box lunch is included (wrap choices of either turkey, roast beef, or grilled vegetables).
