TOWN OF HUNTINGTON
Trash Pickup & Recycling Calendar
2019
Dear Fellow Huntington Residents:

On behalf of the Town Board, I am pleased to present our 2019 Trash Pickup and Recycling Calendar. This easy-to-follow guide contains detailed information about our trash collection and recycling programs. The calendar is designed to ensure that your refuse and recycling service is efficient, user-friendly, and environmentally responsible. By following this calendar and its simple rules, your participation will be instrumental in the program’s continued success.

As many of you may already know from coverage in the local news, there have been dramatic changes in the international markets for recycled materials. What this means to us is our “Huntington Recycles: All In One” single stream curbside recycling program is no longer economically viable. The sole processor of single stream recyclables on Long Island closed its doors on October 29, 2018. Although we were able to maintain curbside collection of single stream recycling through December 31, 2018, continuing this practice in 2019 is not economically feasible. In order to remain environmentally responsible and fiscally prudent, the Town Board and I have decided to bring our curbside recycling program “Back to Basics.”

The “Back to Basics” approach means that our curbside recycling program is returning to dual stream collection. Dual stream recycling collection means that each week your carter will alternate between collecting your recyclable bottles, cans, and plastic containers on one week and your paper and cardboard on the alternating week. Additional information on our “Back to Basics” recycling program can be found on pages 4 and 5 of this calendar and on the Town’s website at HuntingtonNY.gov/DualStream. Additionally, our calendar has tips and reminders on how to recycle properly. Please review the information to familiarize yourself with the changes in our curbside recycling program.

One important point in the collection schedule for 2019: recycling collection will not be cancelled on weeks with holidays. On these holiday weeks, trash pickups cancelled due to the holiday will not be rescheduled. Residents with cancelled trash collection dates will be permitted to place double the amount of waste curbside in accordance with page 3 of this calendar on their following trash pickup day. In consideration of these changes, I ask that you please consult your calendar on weeks with holidays to see when collection is scheduled.

For additional information on Town services, departments, programs, news highlights, and meeting times, please check the Town’s website at HuntingtonNY.gov — if you happen to misplace this calendar, you can always refer to the calendar on the website; a downloadable version of this calendar is also available.

As always, we welcome your comments and suggestions. Please contact us on the web through “Huntington @ Your Service.” If you prefer to contact us by telephone, please call our Sanitation Hotline at 631-351-3186. Our representatives are available 8:30 a.m. to 4:30 p.m., Monday through Friday.

We wish you and your family a healthy, happy, and prosperous New Year.

BASIC CURBSIDE COLLECTION SERVICE & REGULATIONS

DO:

• Place up to 6 garbage cans (UNDER 42 GALLONS in volume), bags, or bundles of garbage (household) each weighing LESS THAN 50 lbs. at one location at the curb for collection on your two weekly garbage pickup days (12 cans or bags on a double garbage day).
• Garbage collection begins at 6:00 a.m. Recycling collection begins at 5:00 a.m.
• Place covered garbage cans curbside NO EARLIER THAN 6:00 p.m. THE EVENING BEFORE collection.
• Town Code requires that emptied garbage cans be REMOVED FROM THE STREET NO LATER THAN 12:00 p.m. the day after pickup, and all garbage cans must be stored behind the front line of your home on non-collection days.
• Place up to 4 BULK ITEMS at the curb on your SECOND GARBAGE COLLECTION DAY of the week. A bulk item is any object (other than appliances and large metal items) weighing more than 50 lbs. or larger than 2 × 2 × 4 ft. or any construction and demolition (C&D) item regardless of size.
• Call your carter to arrange for PICKUP OF APPLIANCE AND LARGE METAL ITEMS. Please do not place items at the curb until the night before your scheduled pickup collection date.
• Place RECYCLABLES at the curb for COLLECTION ON WEDNESDAYS according to this calendar.
• Place bundles or garbage cans of YARD WASTE at the curb for collection on the weeks indicated by a leaf.
  • BRANCHES must be tied in bundles no larger than 2 × 2 × 4 ft.; leaves and clippings must be bagged or placed in uncovered cans.
  • Grass clippings are NOT collected (see page 17 for more information).

The actions listed below are violations of the Town Code or safety issues. These actions may result in a Notice of Violation, or a Summons for the property owner to appear in court:

• DO NOT place MORE ITEMS at the curb than the schedule allows. If the number of items exceeds that allowable limit, NOTHING will be picked up and you may receive a notice of violation. This includes move-ins andmove-outs. For amounts exceeding collection limits, alternative disposal must be arranged. Either self-haul or hire a licensed waste removal company.
• DO NOT use BUNGEE CORDS to secure can lids. It poses a safety risk to your collection crew.
• DO NOT use a garbage or recycling can larger than 42 gallons, or heavier than 50 lbs. when full. Do not fill your garbage or recycling can to more than 12 inches above the rim.
• DO NOT place items at the curb PRIOR TO 6:00 p.m. the evening before your scheduled collection day.
• DO NOT place more than 4 bulk items at the curb on your second garbage day. This includes carpet and remodeling or construction debris
• DO NOT place at the curb any waste consisting of concrete, cement, stones, and/or landscaping soil/sand. Alternative disposal must be arranged. Either self-haul or hire a licensed waste removal company.
• DO NOT place any refuse, bulk, yard waste, or recycling out for collection IN FRONT OF ANYONE ELSE’S PROPERTY.

**RECYCLING IS GETTING BACK-TO-BASICS**

With the slump in the worldwide recycling market over the last two years, “single stream” recyclables have become increasingly difficult to process and market. One way the Town of Huntington can deliver and market better recyclable materials is to return to Dual Stream Recycling. Dual Stream Recycling means collecting bottles, cans, and plastics one week and paper and corrugated cardboard the following week.

Alternating the material on recycling days requires less sorting (which decreases the cost of the program) and also improves the quality of paper and corrugated cardboard (which increases revenue).

An important part of the collection schedule this year is that recycling will not be skipped on a holiday week. This means you won’t have to hold your recycling for more than one Wednesday.

As we return to our **Dual Stream Recycling** program, it's time to get **Back-To-Basics** with our recycling habits. On most pages of this calendar, we have included a recycling information box. Here we have listed what can, and cannot be put in your recycling container.

Please do not “**Wishcycle**.” If you have an item that is not on the “acceptable” list of recyclables, please do not put it in and “wish” it gets recycled. Unacceptable items are considered “contaminants” and will get rejected at the sorting facility. Contaminants are not recycled; they are disposed of as garbage which increases the cost charged to the Town.

So, **when in doubt, leave it out** of your recycling bin. It all starts at the curb, and with your help, we can get back-to-basics, improve our recycling program, and make 2019 the best recycling year ever!

PLASTIC BAGS SHOULD NOT BE PUT IN YOUR RECYCLING CONTAINER

Although plastic bags are recyclable, they are not collected curbside. They must be handled separately. Please reuse your bags within your household or return them to your local store for recycling.

Recycling placed out in plastic bags will not be picked up. Residents that put their recycling out in a plastic bag add to the cost of the program because the contents have to be manually debagged. Loose plastic bags at the material recycling facility get wrapped around moving parts which requires a complete shutdown of the sorting line to clean. Plastic bags in your curbside recycling bin will not be recycled. They will be disposed of as a contaminant.

PUT RECYCLABLES LOOSE IN YOUR RECYCLING CAN AND COVER WITH LID AT THE CURB.

WHEN IN DOUBT THROW IT OUT!
## RECYCLING CANS

We know that households come in different sizes, and they may also need different-sized recycling cans. As a solution for this, we had reflective vinyl “Recycling Decals” printed. When a resident affixes one recycling decal, each on an opposite side of a garbage can (up to 42 gallons) of their choice, it dedicates that can as a recycling container.

Remember, with dual stream recycling we alternate the material that is picked up each week. Having two dedicated recycling cans means you will always have space to keep the paper separate from the bottles, cans and plastic.

Using lids or covers on your recycling can is required by Town Code. Lids keep the paper dry on snowy or rainy paper recycling days which is important. Wet paper can develop mold and mildew which renders it unrecyclable.

Although we began our recycling program with the “blue bins,” we are no longer allowing the use of low/open bins such as totes, milk crates or laundry baskets. These types of makeshift recycling containers create lifting hazards for the workers and affect the quality of paper if it rains/snows.

If you would like four Recycling Decals to place on two recycling cans of your choice, they are available at:

- All libraries in the Town of Huntington
- The Recycling Center at 641 New York Avenue, Huntington
- The reception desk at Town Hall, 100 Main Street, Huntington

NO CERAMICS MUGS, DISHES OR OVENPROOF GLASS

Please don’t put mirrors, china, ceramic or ovenproof glass in your recycling container, they are considered contaminants. If any of these items get into the glass recycling plant, it will make bubbles and cracks in the newly formed glass bottles. Just one ceramic chip can ruin thousands of new glass jars.

### Grass Recycling

1. Allow your lawn to grow at least three inches high. When mowing, cut no more than one inch off the top. Mow only when the grass is dry.

2. Leave the grass clippings in place – DO NOT BAG THEM. The clippings decompose quickly, are a natural fertilizer, keep the lawn moist, and protect against disease.

3. Water your lawn in the early morning hours (between 6:00 and 10:00 a.m.) Water a maximum of three to four hours per week, less if it rains.

4. Don’t over-fertilize. Grass clippings left in place actually fertilize your lawn. Fertilizer needs should be applied only three times a year – around Memorial Day, Labor Day, and Thanksgiving.

5. Keep your mower blade sharp and consider investing in a mulching blade for your current lawn mower. These blades cut and recut the grass more finely and greatly aid the decomposition process. When it comes time for a new mower, consider replacing it with a mulching or recycling mower.

### OVERSIZED TRASH CANS PROHIBITED

Oversized Garbage Cans and/or Bungee Cords are illegal and pose a danger to your collection crew.

It is a violation of the Town Code to place at curbside garbage receptacles that are more than 42 gallons or heavier than 50 lbs. Cans with lids secured with bungee cords, as well as oversized or overweight cans can cause serious injury to your sanitation collectors.

For more information visit: [www.HuntingtonNY.gov/OversizedCans](http://www.HuntingtonNY.gov/OversizedCans)

### STORAGE OF WASTE

**Town Code Standards for Storage of Waste Prior to its Collection:**

The receptacles shall be kept closed and maintained in good and sanitary condition by periodic cleaning, and, when filled, each receptacle shall not exceed fifty (50) pounds in total weight or forty-two (42) gallons in volume.

**REMEMBER: NO CHLORINE** (either tablet or granular) can be disposed of in regular trash. **NEVER** place it in your trash can! Bring it to the HOUSEHOLD HAZARDOUS WASTE FACILITY (see page 9).
The Town of Huntington has very specific rules and regulations for curbside collection service. These rules limit the amount of trash that may be placed out for any particular pickup. It is a violation of Town Code to place more items at the curb than are permitted by the regulations. This includes move-ins and move-outs. The owner of record at the time of the violation will be issued a “Notice of Violation” by the Town that will give them a specified time limit to rectify the violation. If the violation is not corrected within that time limit, a summons may be issued.

There is no special pickup for amounts exceeding these collection limits. It is the responsibility of the owner or occupant at the time the violation is noted to arrange for alternative disposal. These alternative arrangements can include:

- Removing the excess items from the curb and disposing of them over time in full compliance with the rules of collection.
- Hiring a private waste hauler to supply a roll off container to the property for removing the materials.
- Self-hauling the excess items to an appropriate disposal facility and paying for disposal.

Any residential buyers who are closing on their new property are strongly advised to have the previous owner or occupants dispose of all of waste and debris prior to closing. Failure to do so may result in a Town Code Violation and unforeseen expenses to the new homeowner for alternative removal of excess refuse or rubbish that is curbside.

### REMODELING

Plumbing fixtures, cabinetry, hardware, lighting fixtures, tools or major appliances that are in good condition and can be reused, please contact HABITAT FOR HUMANITY RESTORE via email at ReStore1@optonline.net or visit their website at www.suffolkReStore.com or call 631-767-1612 for information on donating these much needed items. Pick-up service is available.

### BULK TRASH COLLECTION

You may place no more than 4 bulk items at the curb on your second garbage collection day of the week. It is a violation of the Town Code to put out more items than your curbside collection allows, and therefore no items will be picked up.

There is no special pickup for amounts exceeding these collection limits.

You may receive a notice of violation for exceeding the allowable amount of items at the curb.

A bulk item is any object more than 50 lbs. or larger than 2 x 2 x 4 feet or any acceptable construction and demolition debris. Residents are advised that home improvements contractors are required by Town Code § 133-1. I. to remove any waste generated by their activities from the premises. These materials cannot be placed for curbside collection.

- Construction/Demolition Debris: items from homeowner’s do-it-yourself bags or containers (less than 50 lbs.) or bundled and tied (less than 50 lbs.) Nails must be removed or flattened. Large door panels must be cut in half. Each half is considered one bulk item.
- Railroad Ties: must be cut in 4-foot lengths, then bundled and tied.

As are man-made stone counters, granite, bricks, mortar, concrete debris, cement rubble, stones, and dirt/sand. These items cannot be processed at the Town’s Energy-from-Waste Facility and therefore must be self-hauled to the landfill drop-off (see page 11) for disposal. Telephone 631-269-6600.

WORKER SAFETY

Did you know that your refuse collection truck picks up over 1,300 homes per day and 2,600 homes on a recycling day? On an average day, your collection crew will pick up over 5,200 items. On a bulk day, your second garbage day of the week, the item count is even more than that.

Placing a quantity and weight limit for items at the curb helps to ensure that the route can get collected within the workday, and reduces the chances of injury to workers during collection.

Below are common reasons workers get injured on the refuse/recycling collection route:

- Lifting injury from overweight or oversized cans or items.
- Puncture wounds from wood/lumber with nails in it.
- Needles and Syringes improperly placed in trash (see page 27 for more information).
- Scrapes/scratches from items protruding more than 12 inches over the rim of the can.
- Lacerations from sharp items such as broken glass or mirrors in a plastic bag. Sharp items such as broken glass, mirrors should be placed in a cardboard box, securely taped and labeled, “BROKEN GLASS.”
- Hazardous household chemical hidden in with trash (see page 9 for more information).
- Injury from another vehicle trying to go around the collection vehicle (see “Slow Down” page 22).

SLOW DOWN TO GET AROUND

New York State Law requires drivers to slow down or move over when approaching waste and recycling vehicles while collecting. This puts them in the same category as other hazard vehicles, such as police or fire trucks.

TOGETHER WE CAN HELP PREVENT ACCIDENTS AND INJURIES AND KEEP YOUR GARBAGE COLLECTOR SAFE:

SLOW DOWN when approaching a garbage truck making its rounds. Stop if necessary to allow workers to do their jobs.

LOOK FOR WORKERS before attempting to pass the truck.

CHECK FOR TRAFFIC approaching from the opposite direction before proceeding around the truck.

AVOID DISTRACTIONS like texting, talking on the cell phone, changing the radio station or programming a GPS system while driving near a garbage truck.

THANK YOU for keeping our workers safe!

### PROPER DISPOSAL OF HOUSEHOLD SHARPS

Many community residents use SHARPS—hypodermic needles, lancets, or other instruments—to manage their health care at home. Proper disposal of these instruments protects family members and our sanitation workers from accidental injury.

### NEVER DISPOSE OF LOOSE SHARPS IN NORMAL HOUSEHOLD TRASH

If you use household SHARPS to manage your diabetes or other medical conditions, please follow these procedures for proper disposal.

- Use a puncture-proof plastic container with a tight-fitting screw top. Plastic soda bottles and bleach/laundry detergent containers work well.
- Do not use glass containers or coffee cans.
- Label the container clearly. Write “CONTAINS SHARPS” with a waterproof marker directly on the container, or on masking tape on the container.
- After using the syringe or lancet, immediately put it in the container. Screw on the top. Do not clip, bend or recap needles because you may injure yourself.
- Keep container away from children.
- When the container is full, screw on the top tightly. Seal with heavy duty tape.
- Place the sealed container with your regular refuse for safe disposal.

**CONTAINERS WITH SHARPS INSIDE CANNOT BE RECYCLED!**
