Since 1984, the Town of Huntington has offered extraordinary social model day care services for our mature adult community.

Our wide range of programs, resources, facilities and staff are second to none! These services are available to Suffolk County residents sixty years of age and older, in most instances, who are experiencing decreased levels of physical and cognitive abilities.

Services are available Monday through Friday. Our participants may attend one to five days a week from 8:00 a.m. to 4:00 p.m. Our fees are budget friendly and are accepted by some long term care insurance plans and Medicaid Managed Long-Term Care.

A continental breakfast and nutritious main meal are served daily with assorted snacks and beverages available throughout the day. Transportation with handicapped accessibility is available for Town of Huntington residents.

What a difference you've made for my mother-in-law. Seriously, I know she was only in for 3 days last week, but she was a different person this past weekend. She used to live on her chair, barely getting up without our encouraging her to get up and move around. This weekend, she was up and moving, exercising a little. She came out to welcome my son home and talk to him about school! She hasn't done that in - I can't remember how long. Mom has been sleeping better and has a visibly better attitude. This morning, she was at the door to go at 7:45!

😊 All this to say, Thank you. S.B.
