

What must I do to Comply?

- **Type III MSD's:** Boat operators must secure each Type III MSD in a manner which prevents discharge of sewage. Acceptable methods of securing a Type III MSD include -
 - Closing each valve leading to an overboard discharge and removing the handle;
 - Padlocking each valve leading to an overboard discharge in the closed position; or
 - Using a non-releasable wire-tie to secure each valve leading to an overboard discharge in the closed position.
- **Type I and II MSD's:** Boat operators must secure each Type I or II MSD in a manner which prevents discharge of treated or untreated sewage. Acceptable methods of securing a Type I or II MSD include –
 - Closing the seacock and removing the handle;
 - Padlocking the seacock in the closed position;
 - Using a non-releasable wire-tie to secure the seacock in the closed position; or
 - Locking the door to the space enclosing the toilets with a padlock or door handle key lock.
- Use pump-out facilities and/or services that are available.
- Regularly examine your on-board sanitary waste equipment for leaks, improper fittings and proper venting.
- If your boat does not have an MSD installed, keep a portable toilet available on board. Dispose of accumulated sanitary waste in a proper manner.

NDZ Enforcement:

NDZ regulations are enforceable by any agent with authority over marine resources, including, but not limited to, NYSDEC Environmental Conservation Officers, Town and Village Bay Constables and County Police Officers assigned to patrol the waters of New York State.

Marine Sanitary Waste No Discharge Zones (NDZ's) and Pump-Out Facilities

*Centerport Harbor
Huntington Bay
Northport Bay*

*Cold Spring Harbor
Huntington Harbor
Northport Harbor*

Department of Maritime Services
Fred Uvena, Interim Director
631-351-3256

What is a No Discharge Zone (NDZ)?

A No Discharge Zone (NDZ) is a designated area where the overboard discharge of treated or untreated sanitary waste (i.e., sewage) is prohibited. In 2000, the New York State Department of Environmental Conservation (NYSDEC) designated the Greater Huntington-Northport Bay Complex as an NDZ. In 2011, NYSDEC designated Long Island Sound as an NDZ. In an NDZ, boat operators are required to secure their Marine Sanitation Devices (MSD's) in a manner which prevents discharge of sewage.* This means that vessels with either through-hull waste disposal systems (Types I and II MSD's) or holding tanks (Type III MSD's) must use an approved pump-out facility within an NDZ.

* - Required under Federal Law - 33 CFR 159.7

Why were NDZ's created?

Sewage discharged from boats degrades water quality by introducing micro-organisms, nutrients, and chemical products into the marine environment. Micro-organisms, which include pathogens and bacteria, may introduce diseases like hepatitis, typhoid fever and gastroenteritis to people in contact with the water, and can contaminate shellfish beds. Nutrients, particularly nitrogen, cause algal blooms that are harmful to fish, shellfish, and eelgrass beds. Chemical (i.e., formaldehyde-based) odor-control products deliberately added to sanitary waste is toxic to marine life. Pumping sanitary waste out of your boat using designated pump-out facilities helps keep the environment clean, resulting in healthy bays, harbors, estuaries, and ocean waters.

Greater Huntington-Northport Bay Complex: Pump-Out Facilities

Name	Location	Contact Info	Availability	Fee
Public - Shore-Side Pump-Out Facility				
Gold Star Battalion Beach	Huntington Harbor 40.89718/ - 073.43227	☎ 631-351-3255	April 1 st thru December 1 st	None
Halesite Marina	Huntington Harbor 40.88993/ - 073.41584			
Mill Dam Marina	Huntington Harbor 40.88560/ - 073.42130			
Powles Marine Agency	Cold Spring Harbor 40.86710/ - 073.46191	VHF Ch. 10		
South Town Dock	Huntington Harbor 40.88892/ - 073.41676	☎ 631-351-3255		
Woodbine Marina	Northport Harbor 40.89545/ - 073.35302			
Public - Mobile Pump-Out				
Town of Huntington Pump-Out Boat 1	Centerport Harbor Cold Spring Harbor Huntington Harbor Northport Harbor	VHF Ch. 9	9:00 AM thru 8:00 PM Saturdays, Sundays and Holidays Memorial Day thru mid-September	None
Town of Huntington Pump-Out Boat 2			10:00 AM thru 6:00 PM Saturdays and Sundays Mid-September thru Columbus Day	
Village of Northport Pump-Out Boat	Northport Harbor	VHF Ch. 9	Daily Memorial Day thru Labor Day	None
			Thursday, Friday and Saturday Labor Day thru Columbus Day	
Private - Shore-Side Pump-Out Facility				
Brittania Yacht Club	Northport Harbor 40.89211/ - 073.35494	☎ 631-261-5600 VHF Ch. 9	Summer hours: 7:00 AM thru 7:00 PM	None
			Winter hours: 8:00 AM till Sunset
