

TOWN OF HUNTINGTON, NEW YORK

**Schedule of New York State Department of
Transportation Assistance Expended**

Year Ended December 31, 2021

Independent Auditors' Report on Compliance for Each Major New York State Department of Transportation Assistance Program; Report on Internal Control Over Compliance; and Report on Schedule of New York State Department of Transportation Assistance Expended Required by Part 43 of the New York State Codification of Rules and Regulations

The Honorable Supervisor and Town Board of the
Town of Huntington, New York

Report on Compliance for Each Major New York State Department of Transportation Assistance Program

We have audited the Town of Huntington, New York's ("Town") compliance with the types of compliance requirements described in Part 43 of the *New York State Codification of Rules and Regulations* ("NYSCRR") that could have a direct and material effect on each of the Town's major New York State Department of Transportation ("NYSDOT") assistance programs for the year ended December 31, 2021. The Town's major NYSDOT assistance programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the NYSDOT assistance programs.

Opinion on Each Major New York State Transportation Assistance Program

In our opinion, the Town complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major NYSDOT assistance programs for the year ended December 31, 2021.

Responsibilities of Management for Compliance

Management is responsible for compliance with New York State statutes, regulations, and the terms and conditions of its state awards applicable to its NYSDOT assistance programs and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Town's NYSDOT assistance programs.

Auditors' Responsibilities for the Audit of Compliance

Our responsibility is to express an opinion on compliance for the Town's major NYSDOT assistance programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Part 43 of the NYSCRR. Those standards and Part 43 of the NYSCRR require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major NYSDOT assistance programs occurred. An audit includes examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Auditors' Responsibilities for the Audit of Compliance (continued)

In performing an audit in accordance with auditing standards generally accepted in the United States ("GAAS") and *Government Auditing Standards* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Part 43 of the NYSCR, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major NYSDOT assistance program tested. However, our audit does not provide a legal determination on the Town's compliance.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a NYSDOT assistance program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a NYSDOT assistance program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a NYSDOT assistance program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Report on Schedule of New York State Transportation Assistance Expended Required by Part 43 of the New York State Codification of Rules and Regulations

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the Town, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements. We issued our report thereon dated June 28, 2022, which contained unmodified opinions on those financial statements.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The accompanying Schedule of New York State Department of Transportation Assistance Expended is presented for purposes of additional analysis as required by Part 43 of the NYSCRR and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of New York State Department of Transportation Assistance Expended is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Part 43 of the NYSCRR. Accordingly, this report is not suitable for any other purpose.
